## EDUCATION

### SRM Institute of Science and Technology

*Master of Computer Applications – 9.59 CGPA*

### CHRIST (Deemed to be University)

*Bachelor of Computer Applications – 8.47 CGPA*

### Academic World School

*XII – 91%*

Kattankulathur, Chennai

*July 2024 – May 2026*

Delhi NCR

*August 2021 – July 2024*

Bemetara, Chhattisgarh

*April 2020 – July 2021*

## EXPERIENCE

### Freelance Frontend Developer

Jan 2024 – Apr 2024

*Ravi Pankha (India) Private Limited*

- Developed and deployed a dynamic web solution using **React.js**, **Tailwind CSS**, and **Sanity.io**, ensuring responsive UI and scalable backend integrations.
- Collaborated remotely with clients to deliver business-oriented features, applying **Git** for version control and **AWS** for deployment.

## PROJECTS

### E-Notes Web Application | *MERN Stack*

- Developed a secure note-taking web app with user authentication and CRUD functionality.
- Implemented **JWT**, **bcrypt.js**, and **Express Validator** for secure login and data validation.
- Built RESTful APIs using Node.js and Express.js, integrated with **MongoDB** for user and notes storage.
- Designed a responsive UI using **React (Vite)** and **Tailwind CSS**, with state management via Context API and React Hooks.

### Personal Portfolio Website | *Next.js, Tailwind CSS, Framer Motion*

- Built a responsive portfolio showcasing skills, projects, and technical blogs using **Next.js** and **Tailwind CSS**.
- Implemented a content-driven blog system using **MDX compilation**, file-based content management, and markdown processing for dynamic rendering.
- Added smooth animations and seamless page transitions using **Framer Motion**, while optimizing routing, responsiveness, and overall application performance for an enhanced user experience.
- Deployed globally on **Vercel**. **Live:** [snehashish.is-a.dev](https://snehashish.is-a.dev)

### MelodyPass: Digital Ticketing System for Live Music Events | *Next.js, Flask, MongoDB*

- Developed a full-stack digital ticketing platform for live music events with role-based access for **Admin**, **Organizer**, and **Attendee**.
- Implemented interactive **seat selection and seat locking** to prevent double booking during checkout.
- Built RESTful APIs using **Flask** for authentication, event management, booking workflows and ticket verification.
- Integrated **PDF ticket generation** with **QR code verification** for secure digital ticket validation and fraud prevention.
- Designed a responsive UI using **Next.js**, **TypeScript**, **Tailwind CSS**, and **React Motion**, with **MongoDB** for scalable data storage.

## CERTIFICATIONS

Cloud Computing (Swayam-NPTEL Certification by IIT Kharagpur)

October 2022

AWS Cloud Virtual Internship (organized by EduSkills in collaboration with AICTE)

March 2025

## ACCOMPLISHMENTS

Meritorious Scholarship under Academic Merit Category for the year 2022-23 at CHRIST (Deemed to be University) Delhi NCR Campus.

Event Coordinator at Aparoksha, annual technical and cultural fest, CHRIST (Deemed to be University) Delhi NCR Campus, 2021.

## TECHNICAL SKILLS

---

**Programming Languages:** Python, JavaScript, TypeScript

**Frontend Development:** Next.js, React.js, Tailwind CSS, Framer Motion, HTML5, CSS3

**Full-Stack & Web Development:** Next.js App Router, Server-Side Rendering (SSR), Static Site Generation (SSG), Dynamic Routing, MDX Content Rendering, RESTful API Development, API Integration

**Backend Development:** Node.js, Express.js, Flask, JWT Authentication, bcrypt.js

**Databases & Storage:** MongoDB, MongoDB Atlas, SQL

**Cloud, Deployment & Hosting:** AWS (Cloud Computing & Deployment), Vercel, Render

**Developer Tools & Platforms:** Git, GitHub, Postman, VS Code, MongoDB Compass, Vite, Sanity.io

**Software Engineering Concepts:** Secure Authentication, State Management (Context API, React Hooks), Scalable Application Design, Component-Based Architecture, File-Based Content Management
